

ENGINEERING IDEAS GRANTS

INCLUSIVITY, DIVERSITY, AND EQUITY ACTION SEEDS

In order to foster this mission, CENG has developed a call for proposals to apply for this funding named Engineering IDEAS Grants (Inclusivity, Diversity, and Equity Action Seed Grants). This resource is open to all Faculty, Staff, and Students of CENG who want to make a difference with creative and innovative solutions to foster welcoming initiatives starting Spring 2020 quarter and later. These mini-grants are intended for small projects ranging from \$200.00 to \$1,000.00. We are also interested in hearing IDEAS to make the online learning environment more inclusive. Applications are accepted on a rolling deadline.
