

*Please join the College of Engineering
and the College of Liberal Arts for the*

2021 SURP Symposium

**Friday,
October 1, 2021**
Engineering Plaza
3-5 p.m.

In the College of Engineering and College of Liberal Arts, Learn by Doing includes undergraduate research projects where students work closely with peers and faculty to generate new ideas and test concepts.

Over the past summer, students from both colleges worked on a variety of projects either individually or in interdisciplinary teams studying topics from TikTok, to nanosensors, and everything in between. No RSVP needed.
