FACULTY AND STUDENTS

Third Wednesday of the Month: CENG Scholarship Seminar

Bonderson, Room 104 • 3:10-4 p.m.

Inviting all Faculty and Students from across the University to join in our monthly scholarship seminar to learn about some of the cool projects (or projects ideas) going on in the college of engineering and beyond. We'll have three different faculty members present each month. Come find out about some projects you can get involved in or find collaborators to start new projects. We have speakers lined up for November, but please contact Bridget Benson (bbenson@calpoly.edu) if you'd like to grab a speaking spot for another month.
