## CSU INTERNATIONAL PROGRAMS MEMORANDUM

From: Dr. Jaishankar Raman, Executive Director, International Affairs 

Date: 10/11/2023

**Re: CSU International Programs Resident Director Application Announcement**

---

The California State University International Programs (CSU IP) is pleased to announce the following opportunity for faculty. We invite applications for the resident director position in Florence, Italy.

The [2025-2026 Resident Director Application](#) is available now. We have set up the following website for you to reference for additional information: [CSU IP Faculty Resources](#).

*Applications are due to CSU International Programs by December 31, 2023.*

CSU IP will not have a resident director for the Spain and France programs starting the academic year 2025-26. Unfortunately, this action was necessitated for financial reasons. CSU IP is working on developing new opportunities at these and other locations where faculty can participate. The details of these will be shared as they become available. We currently offer a faculty seminar, where CSU faculty visit for a week at partner institutions, to present and explore collaborative research. The most recent seminar was held in Japan in June 2023 where 20 CSU faculty participated.

The Resident Director in Florence study center will provide onsite academic, administrative, and fiscal supervision under the direction of the Executive Director of International Affairs.

If you have any questions, please contact [Dr. Jaishankar Raman](#), Executive Director of International Affairs, at 562-951-4790.
