PROGRAM SPANS VARIOUS TECHNICAL AREAS

**OVER 450
RESEARCH PROGRAMS**

- Laser Systems
- Defensive Space Control
- Engineering Physics
- Cyber and Information Technology
- Aerospace Sensing Technologies
- Weapons Modeling and Simulation
- Intelligence, Surveillance and Reconnaissance
- Aeronautical and Astronautical Engineering
- High-Power Electromagnetics
- Space Situational Awareness
- Nuclear Engineering
- Mathematics and Statistics
- Safety In Military Operations
- Electrical and Computer Engineering
- Engineering Applications of Materials
- Operational Sciences and Logistics
- Responsive Space and All Areas of Small Satellite Development
- Directed Energy and Electro-Optics
- Test and Evaluation of Air, Space and Cyber Systems
- Behavioral, Physical, and Physio-logical Aspects of Human Performance
- And more...
